*High*

## SHORT BIO

*Career Director of civil informatics engineering at Universidad de la Frontera, high workload, without much free time.*

*Teaches 2 subjects and is concerned about the knowledge and attitude of new students.*

## OBJECTIVES

- *Not to stigmatize students based on their situation*
- *Intervene in a timely manner with at-risk students.*
- *Maintain confidentiality of each student's situation*

## FRUSTRATIONS / PAIN POINTS:

- *Does not have the necessary information to know students' risks in time*
- *Fears exposing the academic situation of the students*
- *Stigmatizing students*
- *Fear of making a mistake due to a false positive from the system*

## MOTIVATIONS

- *Maintain a good tracking of the students' situation so they have a good performance and stay within the Civil Informatics Engineering career*

## NEEDS

- *Facilities to know the students' academic situation in a timely manner*

## BEHAVIORS

- *Busy most of the time, in the short breaks he has, he talks with students.*

## CHANNELS AND TOOLS HE USES:

- *UFRO Career Directors institutional program (ASIGNA), institutional email, virtual campus.*

## DEVICES:

- *Android smartphone, Windows and Linux laptop.*

*"I am looking for platforms that allow me to support students at the right time so they can finish their degree"*
